

Rochester Area Vanpool Feasibility Study

More than 800 community members told us:

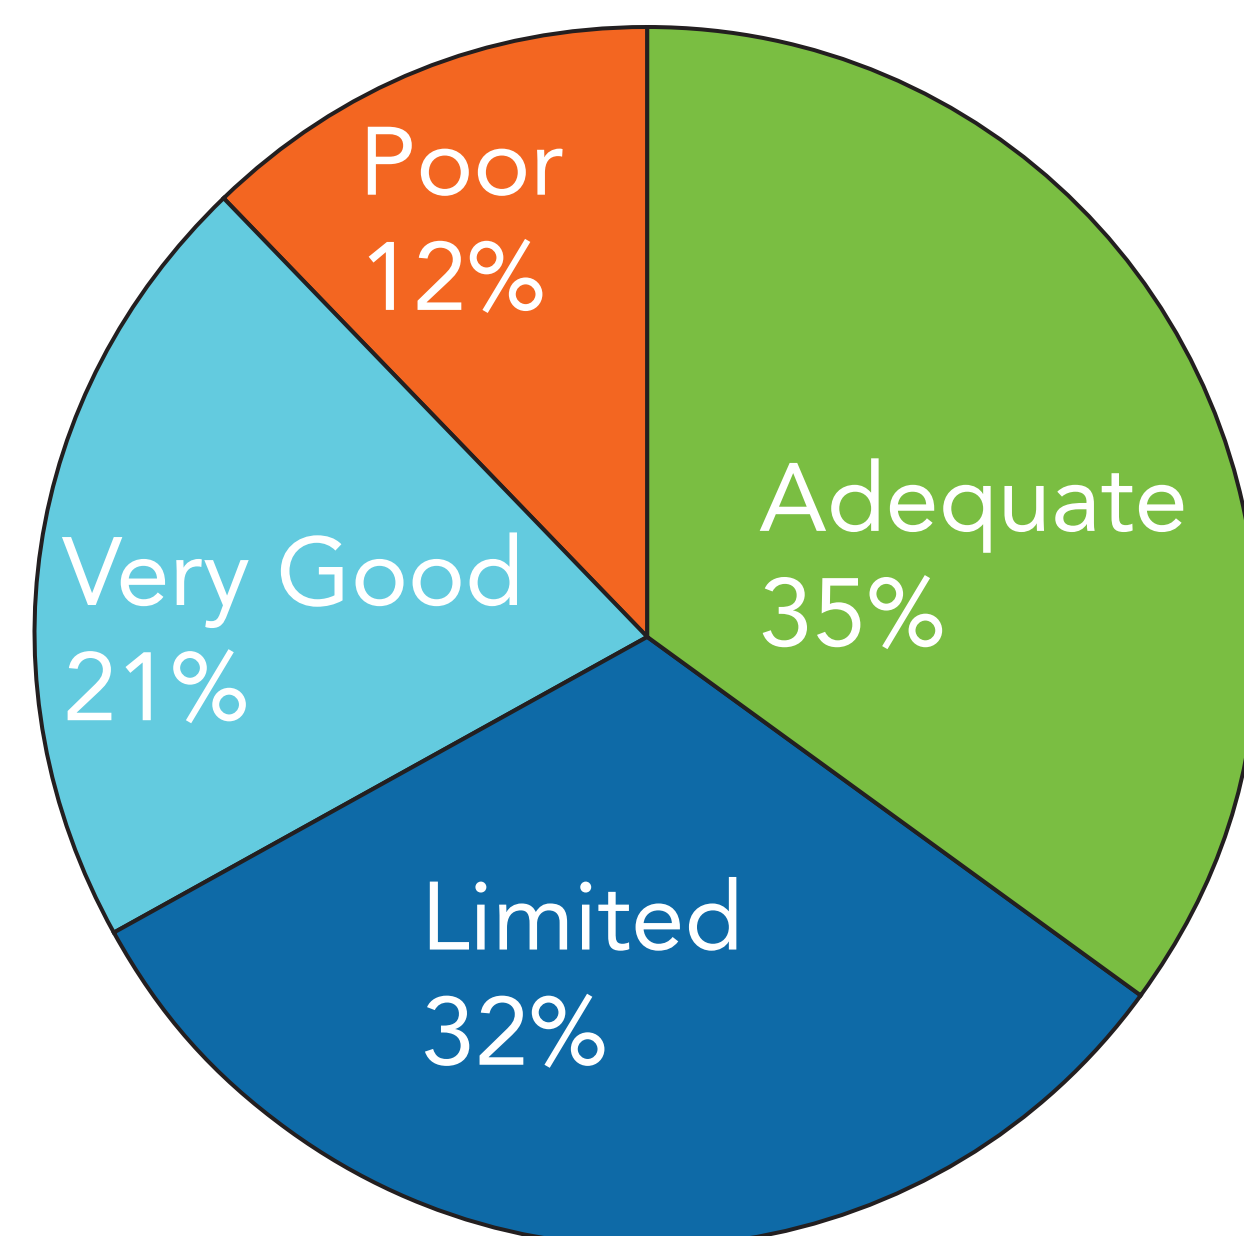

How do you get to work?

Would you consider using a Vanpool service if it were available?

How do you view your transportation options?

Rochester Area Vanpool Feasibility Study: Vanpool Potential

The study has determined that a Vanpool Program is feasible

Vanpools have the potential to meet the needs of:

- Long Distance Commuters
- Suburban/Rural Employers with limited transportation options
- Downtown Employers, including Universities, with limited and costly parking options
- People with Disabilities

Rochester Area Vanpool Feasibility Study

Next Steps:

- Incorporate customer feedback into study results
- Determine a recommended vanpool operating model
- Obtain approval from RTS Board of Commissioners
- Consider implementing a vanpool pilot program
